

Introduction to Mechanical Engineering, Lecture 7

Design Thinking and Manufacturing

What things do you consider when designing a part?

Some properties to consider when designing a part

Shape of the part	Temperature specs
Forces affecting the part	Post processing
Shape	Mating and jointing
Material	Scale of manufacturing
Surface finish	Manufacturing cost

What manufacturing methods do you know?

Main types of manufacturing

Seif's classification

Additive	Subtractive
Formative	Casting/Molding

Main types of manufacturing

Formative

Subtractive

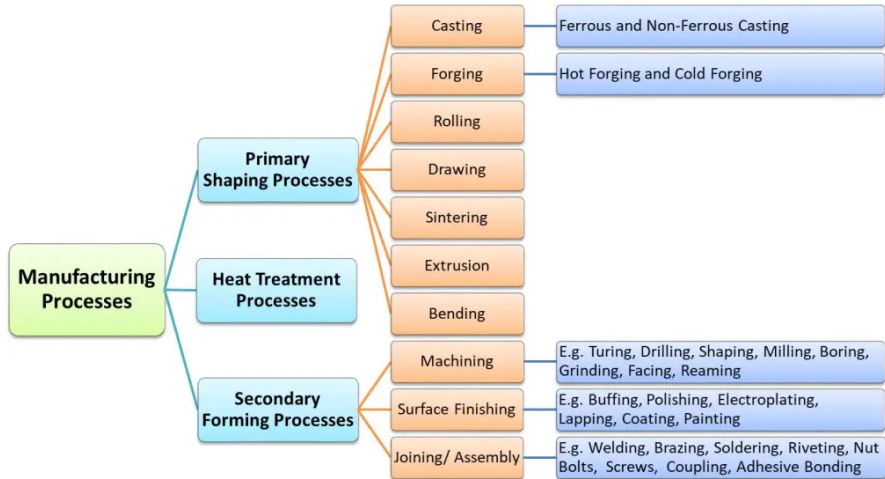

Additive

Now, what machines fall under these manufacturing types?

Manufacturing Processes types

Videos for self education

1. How Things Are Made | An Animated Introduction to Manufacturing Processes
2. UNBELIEVABLY FAST! High-Speed CNC Machining
3. CNC turning thread with high speed
4. High-speed CNC milling!
5. CNC Water Jet Cutting Machine
6. SLA 3D printers
7. SLS 3D Printer
8. Keyway Cutting on Shaper Machine (Долбёж)
9. RPM 3500 with Steel. Fast but Waste Tools
10. 5D Milling machine
11. Z-MaT F855 High speed Vertical Machining Center
12. Metal bird. CNC machining. 5-axis machining.
13. Electrical Discharge Machining
14. EDM Machine at home
15. Result of EDM Machining
